

# THE DEVON FARM

Balancing Business, Nature and Farming  
Farming Sustainably at the 'Sweet Spot' (MSO)

More and more farmers are discovering that farming with nature can not only help restore lost wildlife and habitats but can also help farms become more environmentally sustainable, more resilient to unbudgeted events and even more profitable.

The path to this better future is encapsulated in the concept of **Maximum Sustainable Output (MSO)**

**Talk by Chris Clark**

**Nethergill Associates**  
Exeridge Farm - Oakfordbridge

**Meeting Hosted by**  
**The Rotary Club of Exmoor**

**TUESDAY 18 MARCH**
